Dr. Joshua Lederberg
Yale University
Osborn Botanical Laboratory
New Haven, Connecticut

Dear Doctor Lederberg:

Your culture S 42 was very poorly motile and for that reason the report on it was delayed. Miss Moran has now identified it as *S. paratyphi* A. This probably accounts for its unusual behavior in nutritional studies.

With best wishes, I am

Very sincerely yours,

P. R. Edwards

P. R. Edwards,
